Release Information

Product:	***Bosch KBD-UXF Keyboard plug-in for Milestone Smart Client***
Version:	***1.5***

This letter contains latest information about the above-mentioned software.

1   General

For swift and precise incident retrieval, the Forensic Search Plug-in seamlessly integrates with Genetec Security Center. It uses Bosch IVA Pro metadata which is already present on all cameras by default. There is no need for additional hardware, and it is fully compatible with all Bosch cameras.

2   Features

The following features are covered with this integration.

- Keyboard operations for managing Milestone XProtect operations

- Support for joystick and jog shuttle

- All important functions of the Smart Client GUI can be controlled

- Easy setup for right- and left-handed operators

Versions

- 1.5: Compatibility update
    - Adds support for Milestone XProtect 2023R2 and above.
